

Maharashtra State Pharmacy Council

Council Registration Portal User

Overview

The registration process consists of two major stages:

1. Create an MSPC Portal Account
2. Apply for Registration

Part 1 — Create account (via DigiLocker)

Important: You must have an active Digi Locker account before creating your MSPC account.

1

Create Digi Locker Account

Every Applicant Pharmacist must have an active Digi Locker account before starting MSPC registration. (For a step-by-step guide on setting up your Digi locker account, refer to the official [Digi Locker Registration Manual](#).)

2

Prepare Academic Documents (Recommended)

It is strongly recommended to use Digi Locker document sharing, for this first give consent on Digi locker to fetch the same. Then upload/fetch your Pharmacy mark lists, certificates, 10th, 12th and all academic certificates in Digi Locker. This is optional but can significantly speed up document verification.

3

Visit MSPC Portal

Open <https://online.mspcindia.org/> and click the 'Registration' tab.

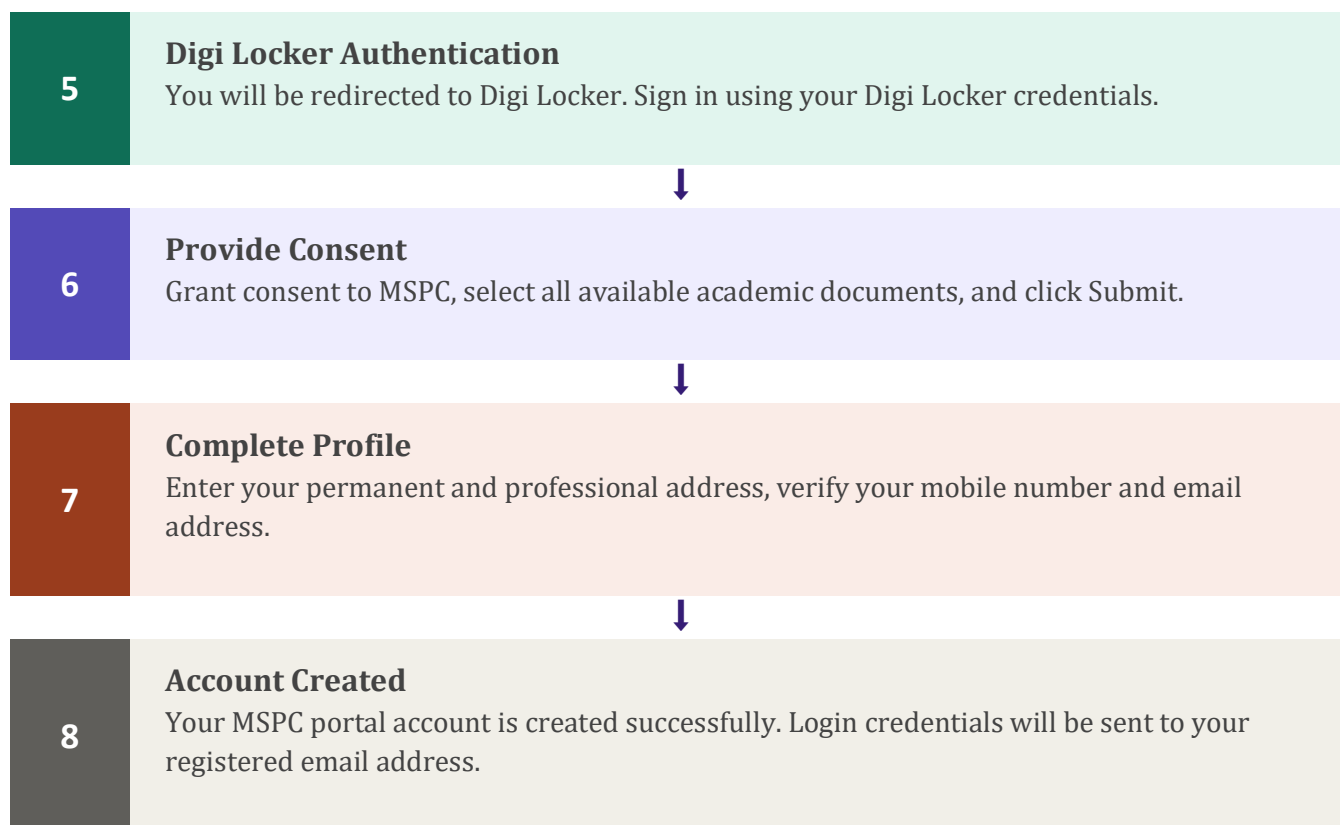

4

Enter Your Aadhar and Contact Details

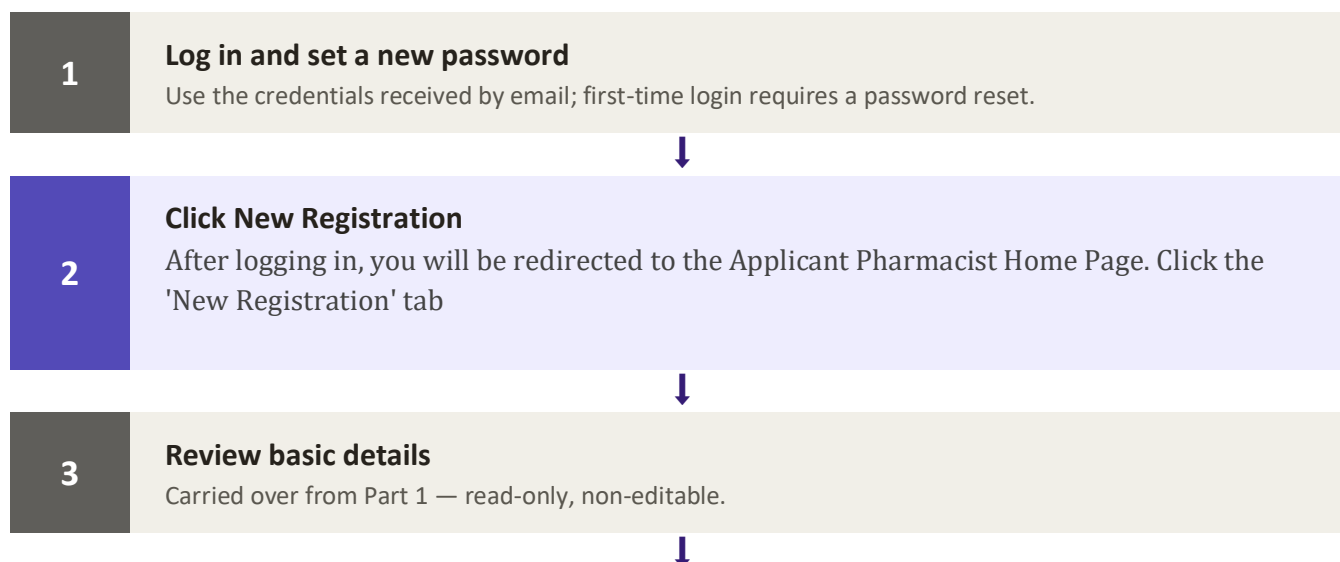

Fill all required fields and click on submit

Part 2 — Apply for registration

After the portal login credentials are received via email, the Applicant Pharmacist can log in to the MSPC portal to complete and submit the formal registration application.

4

Name change (for female Applicant Pharmacists only)

If applicable, enter your name change details. Otherwise, select 'No', save the information, and continue to the next step.

5

Fill education details

Enter qualification details, select college from drop down list and upload all required documents. (If your college name is NOT reflecting in the list, please approach your college principal and ask to contact MSPC office via official letter. DO NOT select incorrect college and proceed)

6

Pay fees

Complete the registration fee payment online.

7

Final Submit

Upload signature, passport size photo and submit.
(Final step — application will be locked after submission).

Important: Verify every form and document before final submission. Once submitted, details cannot be changed — any discrepancy found later may lead to difficulty in approval of the application.

Need Assistance?

For a step-by-step guide on setting up your Digi locker account, refer to the official [DigiLocker Registration Manual](#).

If you encounter any issues during the registration process, please refer to the User Manual available on the official Applicant Pharmacist Registration portal at <https://online.mspsindia.org/>

Frequently Asked Questions

1. What is changing in the new MSPC Platform?

The new platform introduces an improved application process, enhanced appointment flow, better application tracking, role-based processing, and a more streamlined experience for applicants.

2. Will I need to register again on the new platform?

Existing users should follow the new platform's registration/login process as applicable. Your existing application and registration details will be handled as per the migration and verification process.

3. How can I track the status of my application?

You can log in to the platform and view the latest status of your application. The application workflow provides updates as it moves through scrutiny, approval, or other processing stages.

4. What happens if my application is reverted?

If an application is reverted, the reason for the revert will be displayed so that you can understand the required correction and resubmit the application after making the necessary changes.

5. What should I do if I face an issue with my application?

If you face an issue while submitting or tracking your application, please contact MSPC through the support/contact details provided on the platform. Keep your registered details and application information ready for assistance.
